## Marshall Returns To New York For U. N. Proceedings

Delegates From States Seeking Marshall Plan Aid Are Now Hopeful

EUROPEAN NATIONS SEEK 22 BILLIONS

By JOHN A. REICHMANN  
(U. S. Staff Correspondent)

FLUSHING MEADOWS, N. Y., Sept. 23.—Secretary of State George C. Marshall returns to New York today to keep a tight rein on moment-to-moment tactical moves of the United States delegation to the United Nations Assembly.

Delegates from states likely to be recipients of benefits from the projected \$22 billion Marshall plan, announced in Paris yesterday, were gratified with the general response of available officials to the plan.

**Hope For Some Hint**  
They hoped that Marshall would be able to give them some hint of the possibility that President Truman may call a special session of Congress Nov. 15 to deal with immediate emergency problems. However, it was generally assumed that Mr. Truman would not make his intention known until after the Harriman Non-Partisan Committee has made its report on United States ability to meet European needs—without endangering its own economy.

Publication of the report of the 16-power committee in Paris was expected by these foreign delegates who have been following intently developments in the United States to meet a major objection raised by Republican members of Congress.

**May Answer Contention**  
This is the contention that nothing has been put forward by the administration to prove factually the dire need of aid of the war-torn European nations.

Senator Arthur H. Vandenberg (R) Mich., chairman of the powerful Foreign Relations Committee, Sen. Robert A. Taft (R) Ohio, Republican Senate spokesman, and Speaker Joe Martin of Mass., have raised this point.

Representatives of powers hoping to benefit by the Marshall plan were generally of the opinion that its approval by Congress has been substantially enhanced by the slashing attack made on it last week by Soviet delegate Andrei Vishinsky.

By attacking the plan, they feel, Vishinsky has eliminated any possibility of the Soviet Union joining it.

The same rule is expected to apply to some eastern states which ordinarily would be most anxious to participate—particularly Czechoslovakia and Poland.

Temperature was down in the upper thirties in New Castle and Lawrence county this morning. Pa Newc is told, and there was a light frost in some areas.

Purple violets in September, were reported to have been found in the garden at Union township, which is owned by Mrs. David J. Hahn, 110 West Grant street. Just another of mother nature's inconsistencies for this time of the year.

## Report Suspect Confesses Slaying Of 11-Year-Old Girl

PHILADELPHIA, Sept. 23.—(INS)—Police authorities in Philadelphia were informed today that George R. Neil, 22, arrested in Rockville, Md., has confessed the slaying of his 11-year-old niece, Isabelle Mallon.

Neil left Philadelphia on the night of September 6 at the same time Isabelle disappeared while en route to buy stockings with 50 cents given her as a gift.

The girl's partially decomposed body was found on a vacant lot in North Philadelphia last Saturday night. A nationwide search was started for Neil, who reportedly had been seen with the missing child.

The uncle was arrested on a dairy farm near Rockville last night by several Maryland detectives working on a tip. Richardson said in Philadelphia this morning that he received this message from homicide squad Captain James A. Kelly: "Have secured prisoner George Neil. Admits crime. Will waive extradition."

## Crew Of Robot Plane Enthusiastic Over Trip

BRIZE NORTON AIRPORT, England, Sept. 23.—(INS)—The 14 men who made the first flight across the Atlantic in a robot plane were enthusiastic today in their praise of the craft's "perfect" equipment.

The 2,400-mile "push button" flight to Brize Norton airport, 40 miles west of London, from Stephenville, Newfoundland, was completed in 10 hours and five minutes. Col. J. M. Gillespie, 52-year-old Texan in charge of the flight, said he and the others who traveled as observers were completely satisfied with the plane's electronic equipment which he said "functioned perfectly."

Colonel Gillespie said: "We could have slept all the way in comfort."  
None Rested Much  
But he explained that none rested very much because they were too interested in watching the progress of the craft operated entirely by a mechanical brain.

Colonel Gillespie continued: "We were lucky at striking a good passage."  
The weather was perfect, except for a moderate rainfall about 150 miles west of Ireland.

"All of the equipment functioned perfectly."

NEW ORLEANS, La., Sept. 23.—(INS)—Planes fanned out over Louisiana swamplands southeast of New Orleans today seeking bodies of 12 persons belatedly reported dead from the hurricane which struck the region Friday.

The widespread search of the Bayou country may increase the death toll from the stricken region.

The Mississippi gulf coast reported 20 dead from the storm. Latest estimates of damage to the Mississippi gulf coast region ranged from 35 to 50 million dollars. Biloxi's shrimp industry was believed to have suffered a 15 million dollar loss.

A stiff wind continued to push water from Lake Pontchartrain into the flooded Metairie section of New Orleans.

**Mass Inoculations**  
City health officials began widespread mass inoculations for typhoid to combat any possible spread of the disease in the flooded area.

A drainage canal was sliced through the levee in an attempt to force flood waters back into the lake.

Another health menace was found at Clermont harbor. Authorities said that the populace was threatened with disease from stagnant water and hundreds of dead animals that fill the beach.

On the Mississippi coast the mayor of Biloxi began recruiting labor under authorization to "conscript" such physically-fit persons necessary for clean-up work.

The special conscription was ordered because "present conditions are inimical to health, welfare and safety of Biloxi."

Temperature Drops To Low Thirties In Parts Of Pennsylvania

SUMMER TO BOW OUT LATE TODAY

(By International News Service)

Killing frosts blanketed much of the western half of the state, and temperatures ranging as low as 25 were officially reported.

**Down To 26 At Kane**

**Down To 35 Degrees**

In the Union Township district, an unofficial temperature of 35 degrees was reported there, with frost visible. In the Harrisburg area, quite a visible amount of frost was noted by residents with little or no fog.

## Says First Obligation To American Citizens

SWAMPSCOTT, Mass., Sept. 23.—(INS)—Reductions in Federal spending and Federal taxes were listed today by Gov. Dwight H. Green of Illinois as "a prerequisite to the solution of many pressing domestic problems."

The Illinois governor, a Republican, outlined before the joint convention of International Association of Casualty and Surety Underwriters and National Association of Casualty and Surety Agents, two measures to curb inflation. He urged:

1. Immediate reduction in Federal taxes.  
2. Discontinue the artificial export market for scarce American goods.

Concerning Federal taxes, Governor Green said: "A reduction in corporate income taxes will effectively reduce costs of production all along the line, from basic materials to consumer goods."

**Will Help In Squeeze**  
"A reduction in personal income taxes will help the consumer to survive a squeeze in which . . . his current expenditures for necessities have jumped from 71 to 93 per cent of his income, and threatens to hit the saturation point."

The Illinois governor told of the anticipated call upon Congress to meet and provide billions of dollars for so-called loans to Europe. But, he pointed out, nobody is "studying carefully how much we can afford to give to Europe at this time."

## Truman Plans To Make Appeal On Food Saving

Will Ask People Of Nation To Adopt Voluntary Food Rationing Program

NO DECISION YET ON CONGRESS CALL

By ROBERT G. NIXON (U. S. Staff Correspondent)

WASHINGTON, Sept. 23.

President Truman will make a strong appeal to the American people to adopt voluntary food rationing to meet the crucial needs of Europe during the next year.

Mr. Truman's proposed solution of the present food crisis was disclosed today by a source close to the cabinet.

**Nationwide Appeal**

The chief executive is expected to make his nationwide appeal for a voluntary food "austerity" program of living in a radio "fireside chat" to the nation this week-end.

The president's decision on whether or not he will call Congress into special session will be made separately on the basis of a lengthy first-hand report on the international situation, with special emphasis on the Marshall plan. The report was presented to Mr. Truman by Secretary of State George C. Marshall and Under-Secretary of State Robert Lovett.

**May Call Session**

There was a possibility that Mr. Truman may summon a special session of Congress for Nov. 15, although there was no official comment.

This would give Congress a month's time before the beginning of the Christmas holidays to get the wheels rolling for substantial American aid to Europe.

Marshall and Lovett are reported to have told Mr. Truman that there is an urgent and immediate need for as much as two and a half billion dollars worth of American relief to keep western Europe from starving and freezing this winter.

Connally, just returned from the Inter-American meetings at Rio de Janeiro, told a news conference that "I'm not particularly happy" over the Russian attitude as expressed at the United Nations General Assembly meeting in New York.

## Arthur Mometer

And how's your petunias this bonny day, and how are your pepper plants, did you cover your beets with some paper cups and your tomatoes with paper pants? For the imps of frost are abroad again, and gardens will feel the sting, and over it all as the evening falls, the chorus of frost imps sing. It won't be long till those amnia plants will look like a bunch of hay, for the frost is back for a little trip—it's fifty-seven today.

## World Bank Hopes To Cooperate With Marshall Aid Plan

Cannot, However, Put All Resources In One Continent On Project, Says Vice President

WASHINGTON, Sept. 23.—(INS)—Robert L. Garner, vice president of the World Bank, said today that the bank hopes to cooperate with the Marshall plan to rebuild Europe but that the international fund cannot ignore the needs of Latin-America.

Garner told a news conference that the international bank "cannot put all its resources into one continent or one project."

Discussing the announcement by the Marshall plan conferees that the World Bank would be asked for a loan of three billion, 110 million dollars, Garner said:

"The bank could not raise such an amount of money all at once. We now have one half billion dollars in the kitty which is not committed in loans to foreign countries."

"To raise three billion dollars, we would have to look to the American markets over a period of years," Garner said that although the bank "obviously" will keep its eye on the Marshall plan in charting its own course, the bank "wasn't set up just to finance Europe."

## TRUMAN PLANS TO MAKE APPEAL ON FOOD SAVING

(Continued from Page One)

Doing Fine Work. H. B. Richards of the Rotary club pointed out that other cities of the state are doing excellent work in the field of employing the impaired worker and believes that New Castle can make great strides also in this work.

It was disclosed that one Lawrence county industry has absorbed 50 handicapped workers into jobs. F. D. Raffaele of the Pennsylvania Blind association said that his organization's workshop on South Mill street now has four workers with impaired vision and that excellent progress is being made in this department.

Although the meeting was necessarily general in its scope, the response was heartening and it is felt that the city will soon have a sincere group working for the betterment of these capable but physically handicapped workers.

from the time we touched the button at Stephenville until we taxied into the hangar at Brize Norton.

Fully Automatic. "The navigation was pre-set into the equipment and was fully automatic all across the ocean."

"Even the landing at Brize Norton was automatic, the impulses being fed into the automatic pilot, thereby operating the flaps, putting the wheels down and cutting the throttle on landing."

Colonel Gillespie said that a navigator aboard checked the course of the ship as a matter of routine but emphasized that nothing aboard the C-54 transport was touched.

The only time that a manual control was used was at the end of the flight when the machine was taxied into the hangar.

### COUNTY ART GROUP VIEWS PAINTINGS

Lawrence County Art Association  
opened its season of monthly meet-  
ings with a dinner Monday evening  
in a private dining room of the  
New Penn Hotel. Dinner was served  
at 6:30 o'clock to 19 at a table  
centered with a bowl of marigolds  
and at each place was a program  
book for the year in an attractive  
cover decorated with a stylized  
flower design.

During a short business meeting  
afterward, Miss Virginia Foulke, new  
president, presided, and gave a  
resume of the programs planned  
for the year. Some will be programs  
for which speakers have been in-  
vited and others will be workshop  
evenings with members of the as-  
sociation as instructors.

It was pointed out that the ob-  
jects of the association are: (1) to  
bring together in closer understand-  
ing all art teachers and all persons  
interested in art with the aim of  
making Lawrence county art con-  
scious and (2) to provide oppor-  
tunity for exchange of ideas and  
discussion of art problems.

After business, the group went to  
the home of Mrs. Jack McComb,  
422 East Winter avenue, to view the  
painting in water color and oils,  
also the hand-painted china de-  
corated by Mrs. McComb's mother,  
the late Olive Green Pyle, well-  
known in Lawrence county for her  
paintings and also as an art teacher.

The group viewed numerous land-  
scapes painted by Mrs. Pyle in Penn-  
sylvania, North Carolina, New Jer-  
sey, others of foreign scenes, and  
lovely florals executed in oil on a  
black ground, and then were shown  
the extensive collection of hand-  
painted china done by Mrs. Pyle.

From the age of 15 until her death  
four years ago, she devoted a major  
portion of her time to painting and  
to teaching painting. She had stu-  
died at the Chicago School of Fine  
Arts and at the Philadelphia School  
of Fine Arts and for a period of  
time instructed art at Westminster  
College.

It was announced that her works  
will remain on display at the Mc-  
Comb home Wednesday and Thurs-  
day evening this week.

Next meeting of the association  
will be October 27 for dinner at  
the New Penn Hotel to be followed  
by a workshop to make Christmas  
cards with Mrs. David W. Nesbit.  
In charge. An exhibit of hand-  
made Christmas cards will also be  
a feature.

was matron of honor. Bridesmaids,  
the Misses Esther Lehto and Sylvia  
Koski, were gowned in pink taffeta  
and wore red rose headdresses and  
carried red roses.

John Binder served his brother-  
in-law as best man and ushers were  
Paul Cook and Norman Stang, of  
Sharon.

Appropriate wedding music was  
played by Mrs. C. G. Lindner, or-  
ganist, and Mrs. E. Leppaluoto who  
sang "Beloved Is My Home."

A reception followed in the church  
parlor where the wedding party was  
seated at a table beautifully de-  
corated with a four-tiered wedding  
cake, flowers, and candles.

At 7 o'clock a wedding dinner  
was served at The Castleton to the  
families and friends. C. G. Lindner  
acted as toastmaster and several  
piano selections were played by Mrs.  
J. W. Helkimo, sister of the bride.

Mr. and Mrs. Uder left on a short  
wedding trip before taking up re-  
sidence in their newly built home in  
the Morton Plan near Homestead.

Mrs. Uder, a graduate of Shen-  
ango high school, has been em-  
ployed at the Shenango Pottery.  
Mr. Uder, who served with the Army  
Intelligence corps in Italy during  
World War II, is employed at the

### Russian Charges In Greece Absurd

ATHENS, Greece, Sept. 23.—Any one here even a brief time can learn how absurd are the Russian charges that the United States is seeking to dominate Greece. No invader in all the centuries of turbulent Greek history ever came with less of the idea of domination. One handicap may be that we are too reluctant to take the leadership in straightening out the Greek tangle. Greek politicians expected something like that to happen. They were prepared to relax and enjoy it.

Now they are puzzled and perhaps even irritated because of the American reluctance to use a strong hand. They complain that Aid Director Dwight Griswold does not tell them what they should do.

The only thing resembling intervention this far is the insistence of the Americans on broadening the base of the Greek government. That was wholly in the interest of democracy and representation of the mass of the people. Even that was done tentatively and after long hesitation.

#### Refute Russian Charge

It is almost enough to refute the Russian charge before the U. N. to say that the Communist party operates openly here in Athens. A Communist paper is published daily, and daily is full of denunciations of Griswold and the American aid mission. Griswold has been urged to curtail this freedom and perhaps suppress the extreme left-wing press, but he has steadfastly refused to do so.

In the country outside Athens the situation is different. There known Communist sympathizers are likely to be arrested by government police or attacked by armed bands of the right. This is a phase of the bitter feud that in the north takes the form of open civil war.

The violence and lawlessness of the extreme right existed long before the U. S. mission arrived. One objective of the mission is to get the situation under control, but that is extremely difficult when law and order are largely non-existent in most of the country. But the important fact is that peace and the restoration of democracy are the goals of the mission. (Continued on Page Seven)

### ALWAYS THE PESSIMISTS

The pessimists are always busy. I remember after World War I this nation was threatened with the failure of oil supplies and consequently a failure of a supply of gasoline. There were all sorts of stories current of inventors getting busy on a substitute for gasoline. That was thirty years ago that we were not going to have gasoline for our automobiles, at least.

Well, that same story is being told now. A serious shortage in gasoline is threatened and certain experts in the oil business have told about the decline in our oil reserves. Contemporaneously with this threat the government permitted Russian tankers to be loaded in Los Angeles harbor with gasoline—the Elbraus, the Emba and the Krasnia Armia. Each vessel carried away a cargo of fifty thousand barrels of American oil. It is presumed that the shippers of the oil were paid, but just what obligation we have in view of our present relations with the Soviet government, to be shipping out big cargoes of our gasoline—in the face of this threatened shortage—nobody in Washington has explained, so I guess that Washington did not think it has to be explained, but remembering our experience with Japan in steel scrap and oil, it would seem time for somebody in authority to stop this flow of American gasoline to Russia. There is no necessity of going out of our way to satisfy the demands of Russia for any of our products when we need it for our own use.

### A SCURVY TRICK

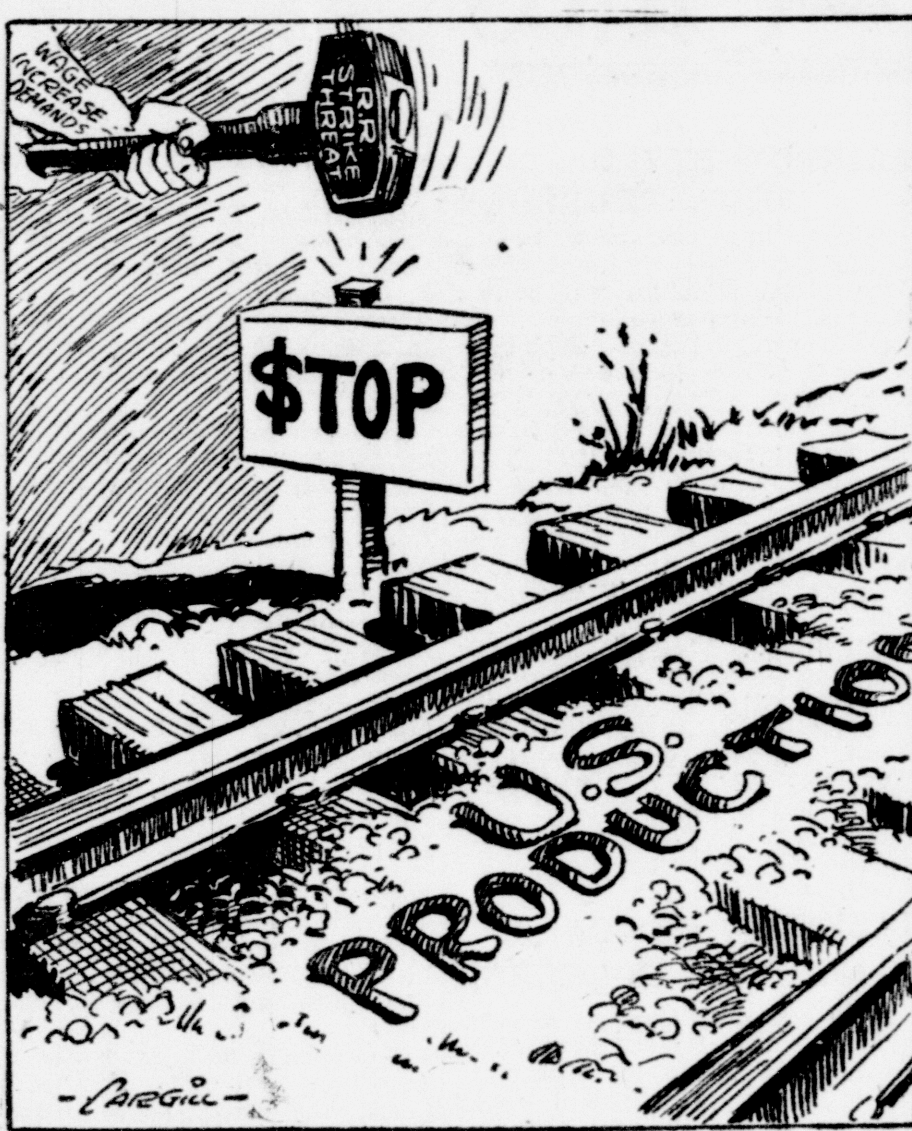

In former years scurvy was a very common disease. It was so common and we knew that the word came into use to mean anything bad.

After a long while, people found out that scurvy was due to a faulty diet. A lack of certain foods caused scurvy.

It seems that foods providing vitamin C are necessary for good health. C is the first letter of the names of many of these fruits and vegetables. Citrus fruits mean lemons and oranges and limes and grapefruit and tangerines.

Other things are cabbage, cauliflower, cantaloupe and corn. Canned tomatoes are rich in vitamin C and raw ones are too. You will play yourself a scurvy trick if you don't eat enough vitamin C.

## The Parent Problem

By Garry C. Myers, Ph. D.

### TYPES OF SCHOOLDAY 'ILLNESS'

A great many children of the primary grades are suddenly seized with "illness" on a school morning. Some children actually have symptoms of illness then, such as nausea, even vomiting on school mornings while without such symptoms on other mornings.

Parents have written me of the child who complains of a headache or tummyache or that he "is sick" as soon as he rises on a school morning; or of the child who can eat no breakfast or loses it before starting to school or when in sight of the school house; or of the child who whines and cries as he begs to be allowed to stay home, sometimes hysterically.

#### An Eating Problem

His techniques for these escapes may have developed long before he began school. Often an eating problem is involved. (My bulletin, "Eating Problems: Their Prevention and Correction" may be had in a stamped envelope by writing me at 235 East 46th street, New York, N.Y.). Many a child from two to six forced to eat against his will can grow nauseated, chiefly through the attending upset emotions. It is easy to see how similar emotions with physical reactions often connected with them during months or years can be aroused or set off on any school morning in the child who dreads to go to school.

This "eight o'clock sickness" can easily deceive the sympathetic mother for a long while and get considerable practice before she ever suspects it is not the "real thing." Indeed some child experts have been fooled. Moreover, since the child may be so pathetic the mother may have the heart to see the matter through and will fool herself to believe the child must be sick when the doctor can find nothing wrong with him. And if she shops around enough she may be able to find an expert who will advise her to let the child stay home at any time he "feels" ill. Nevertheless, this same says he is sick lest she harm his expert may make speeches and write articles on the danger to personality and mental health from running away from reality.

If your child says he is sick on a school morning and it happens several times, take his temperature. If he has a fever call the physician. If he has a fever accept him at his word and put him to bed for the next 24 hours with no radio, no comics, not much attention and very light diet. Do likewise in the next case and the next.

#### The Probable Cause

In the meanwhile look into the probable cause of his dread of going to school. There may be one or more factors—some unhappy experiences with his teacher or class—(Continued on Page Seven)

## One Man's Opinion

By Walter Kiernan

There is good news from a biologist that man some day will live 150 years . . . or long enough to enjoying his Social Security.

Today any working man can retire at 65 . . . Living or dead.

In fact if he's dead he has a better chance of living on his Social Security.

What we seem to be suffering from is an abundance of shortages and a shortage of abundances.

Advices to eat less are not welcomed by many people who had just begun eating. . . . They found it habit-forming.

The one thing we have is money. This year the USA will pick up the check for 40 per cent of the U. N. budget. . . . At last we have found something that Gromyko won't veto.

And if 40 per cent isn't enough we also will pay the tip.

And you will find as time goes by That every ache and every sigh Comes from the happy long ago, When joy and peace were yours to know.

She would not have you grieve; and yet, Those moments when your eyes are wet,

## From Me To You

By MESEKALL

It's here . . . the day that the hay fever sufferers have been waiting for . . . the frost came and that should kill most of the pollen that has been filling the air for the past month or better. What damage the frost of last night did to any of the fruit crop . . . we can't tell until the fruit farmers start calling in and making their report . . . It will be easy to recall when the first frost came this year . . . the first day of fall.

Those who still have work to do in their yards had better get busy . . . and this scribe is one of those so-called late farmers . . . There are many things that need to be done . . . moving plants and shrubs . . . and making plans for a cut flower garden for next summer. But working in the garden this time of year seems to do something to a person . . . the air is so full of pleasant odors . . . a mellow smell.

Now that summer is gone . . . we can all look back on a pleasant four months . . . good time that we all had . . . swimming, playing golf, loafing around . . . and remember the heat wave . . . wasn't it terrible. Now our life has started to change . . . the things we can do and want to do in the Fall is so very much different than Summer activity . . . But . . . yes there is a BUT . . . there will be some people who just can't give up their weekly golf game . . . and until the snow flies there they will be, puffing along from sand trap to sand trap.

Bowling is now the fashion . . . and those who haven't bent a knee since early last Spring are moaning around this week . . . ever knoed however, that another few games and they will be right back in the groove . . . making strike after strike.

And the more energetic set will be settling down to a fast game of gin-rummy or a deep game of bridge. Sweet apples and cider will be passed around . . . and we affectionately call this bit of hospitality "lunch killer" . . . it seems that the host and hostess fill up their guests with sweet things hoping that when it comes time to have a sandwich and a cup of coffee . . . there won't be much desire . . . Some fun.

If ye then be risen with Christ, seek those things which are above, where Christ sitteth on the right hand of God. Set your affection on things above, not on things on the earth. For ye are dead, and your life is hid with Christ in God. When Christ, who is our life, shall appear, then shall ye also appear with him in glory.—Colossians 3:1, 2, 3, 4.

## Looking At Life

By Erich Brandeis

The New York State Bureau of Motor Vehicles reports proudly that during the first six months of this year only 807 persons were killed in automobile accidents in the state, as compared with 920 during the same period the year before, a drop of 12 per cent.

By the end of this year 1600 people will have lost their lives in one state alone, which is more than the loss of lives in many of the battles during the war.

The total loss of lives by automobile accidents in the whole country is still more than 30,000 a year.

In other words, every single year the equivalent of the population of entire cities such as Tucson, Ariz., Alameda, Calif., Colorado Springs, Colo., New London, Conn., Marion, O., Easton, Pa., Everett, Wash., is being wiped out by the wanton murder of innocent people.

The same idiots who speed down busy highways and crowded city streets in their thunder-wagons throw their hands up in horror when they read about the cruelty of the madmen of Russia and Yugoslavia and India.

Where are they any better? What difference does it make whether it's religion, politics or criminal carelessness?

Murder is murder in any language, in any country and for any reason.

And murder by automobile should be punished much more severely than it is now.

I go on quite a few automobile trips, and there is never a trip on which I don't see drivers willfully violating the rules of the road and the laws of decency and courtesy.

Only yesterday a fellow, with his arm around his girl, sped by me at fifty or more miles an hour. He had a broken-down old car, while I had just got me a nice new big one that can outrun most of the other cars without any effort. As he passed me he grinned and thumbed his nose at me (mind you—one arm around his girl's waist, the hand of the other one pressed against his nose instead of holding the steering wheel).

A thousand feet ahead he stopped, apparently at his home, without signaling.

Fortunately I had good brakes, or I might not be here to tell the tale.

And a little further down the road there was a big billboard saying: "Go slow. What's your hurry? Can't you wait for death?"

I am glad that automobile accidents are decreasing.

But they are decreasing too slowly.

Why not take a few hundred of those crazy speed idiots off the road by sending them to jail?

Of Great Significance

Or perhaps greatest significance was the declaration by French Foreign Minister Georges Bidault to the Assembly that his nation is determined to go along with the Marshall plan for European economic reconstruction in spite of tremendous pressure by Russia to divorce France from the Anglo-American structure.

Bidault's address was particularly significant for this reason: It coincided with a speech at Lyon, France, by former President Gen. Charles de Gaulle in which he accused French Communist of attempting to make his country an obedient servant of Soviet imperialism.

Against this, however, Bidault said firmly that France "will not turn back" on her policy of economic and political cooperation with the United States, whose diplomatic clash with the USSR was definitely underscored by the now historic speech of Andrei Vishinsky.

Sharp Division

This sharp East-West division also had an emphasis in the assembly of Czechoslovakian Foreign Minister Jan Masaryk, who said bluntly that Europe was swinging to the left under pressure of economic necessities.

And it was reflected as well in Rome, where Pope Pius was reported to have voiced a new appeal to the United States to assist in salvation.

Even if your family have, up to this time, used all of their powers to dissuade you from this union, now that it is inevitable, their duty to you is to surrender and welcome your future wife into the family. If you condone their neglect in this particular item, you admit doubt as to whether you are marrying the right girl. And even if your fiancée lives apart from her parents, it is the duty of your parents, brothers and sisters to call at once on her parents as well as upon her. And, of course, their obligation to return your parents' call is equally pressing.

Question: We are giving our intended sister-in-law a chest of silver. Naturally, we cannot afford every little item but do wish to give her all the necessary pieces that she might comfortably entertain. Could you tell us just what these should be?

Answer: It might contain forks—both large and small; knives—both large with steel blades and small ones with silver blades, and table spoons. These are the essentials without which it is difficult to entertain. If you wish to be overly generous, you might include dessert spoons, tiny coffee spoons and butter knives. If no one gives her oyster forks and serving forks and spoons, she might eventually add these herself. With this combination, she will be ready for almost any social emergency.

Present your problems to Miss Markel who will promptly mail personal replies to questions from readers inclosing stamped, self-addressed envelopes.

## Counter Headline Exchange

By PAUL GALLICO

Judging from the headlines and news stories, our friends and well-wishers, the Russians, are releasing a one-way stream of accusations, abuse and ill-augury in our direction. Even on a quiet day, Pravda can dig up that oldie about "Capitalism Doomed in Decadent West," or "Pravda Sees U. S. Economic Crash Near," and I am wondering whether there is any return service available to the Russians from this country. If not, I would be happy to offer a few standing headlines such as "Gallico Brands Communism a Fake," and "Gromyko a Pain in the Neck, Columnist Says," to toss into Pravda on a dull afternoon.

### Would Be Dull Reading

I am not sufficiently familiar with the Russian mentality to know whether they would enjoy this sort of thing in their newspapers as much as we seem to in ours. But it must get to be a little dull reading eternally how wonderful you are and what a no-good the other fellow is, though I must say the Muscovite has exhibited a wonderful capacity for lapping up self-praise to date. But the Moujik mind is represented as a rather dour one that is happiest when confronted with gloom, and it is my feeling that from time to time we ought to provide him with a few dire predictions and prophecies of doom, just to keep him on his toes.

### Would Have Ready Exchange

Thus, when boys in Moscow put one out—"REES SEE CAPITALISM DOOMED IN U. S.," my little service would have one all ready in exchange—"COMMUNISM CAN'T LAST, SAY RED-WHITE-AND-BLUES; WAIT UNTIL THE SUCKERS WHO BOUGHT IT FIND OUT WHAT THEY'RE MISSING." This one ought to go big in Lestavia on a Sunday afternoon, and permission is hereby given my Russian colleagues to reprint it. For five rubles in stamps, I will send along the story that goes with it, which is a dilly.

I have a recent Russian headline here—"PRAVDA SAYS ITALO-U. S. PACT IS A SELLOUT TO THE AMERICANS," a robust statement calculated to bring joy to the heart of any Volga boatman. In return, Pravda may have its choice of any of the following—"SOVIET ECONOMIC CONTROL OF BALKANS BARE-FACED SWINDLE, SAYS GALLICO," or "RUSSIAN 'CAPTURE' OF HUNGARY IMPUDENT AND TRAGIC," or "REDS UNMITIGATED NUISANCE TO WORLD, AMERICAN WRITER CHARGES." Go ahead, help yourselves, boys. They're all on the house.

### Look After Individuals Also

Our department is also prepared to look after individuals who are asking for it. "MARSHAL TITO ACCUSES UNITED STATES OF ECONOMIC BLOCKADE OF YUGOSLAVIA" to which we offer either—"IN YOUR HAT, TITO; WE KNEW YOU WHEN YOU HAD YOUR HAND OUT," or possibly something a little more elegant for the Yugoslavian carriage trade—"OKAY, TITO, HAVE IT YOUR OWN WAY BUT YOU'D BETTER KEEP AN EYE ON MOLOTOV AS WELL WHILE YOU'RE AT IT."

Then here is a pair that can be settled with just one counter-headline. "RUSSIA BARS U. S. NAVY SHIPS FROM DAIREN PORT," and "RED SKIPPER BARS PRESS FROM SOVIET MERCHANT VESSEL IN N. Y." Our department suggests—"U. S. BARS RUSSIANS, WHEN, WHERE, IF AND HOW!"

### Prophecy Of Doom Division

In our Prophecy of Doom Division, we have some nice little numbers to offer in thanks for Soviet predictions of the collapse of American economy, government and social system. "U. S. EXPERT FORESEES SOVIET REVOLT BY 1950 TO LIBERATE RUSSIAN MASSES"; also, "FORECAST COLLAPSE OF COMMUNIST SYSTEM WHEN CHUMPS BEGIN TO CATCH ON TO RACKET," and "POLITBUREAU SHAKING IN SHOES AS NEWS OF WESTERN CIVILIZATION SEEPS THROUGH IRON CURTAIN," or "SPECTRE OF FREEDOM, LIBERTY AND DIGNITY OF HUMAN SPIRIT HAUNTS KREMLIN GANG," or "WHAT'S THE DIFFERENCE BETWEEN FASCISM AND COMMUNISM, ENSLAVING RUSSIAN MASSES CRY!"

These, of course, are merely samples to indicate what the Gallico Service will be like, and to give our opposite numbers in the Soviet the opportunity to subscribe. When we get going we expect to turn out some really hot ones that will make even Pravda blush.

The weightiest problem facing Europe except for war itself was projected into the forefront of international affairs today.

It is simply whether or not Soviet Communism means national bankruptcy for the countries which accept it.

Deliberations of the United Nations Assembly at Flushing Meadows, political speech-making in France, and a new declaration by Pope Pius in Rome all centered about the role that the Kremlin is playing with ever-increasing importance in the economic and political affairs of a war-weary world.

Editorials in the controlled Soviet press and in countries close to Russia praised the Soviet vice force, in the economic and political affairs of a war-weary world.

But they did not say whether or not Vishinsky's aim was to torpedo the United Nations.

Nor did they give any hint as to whether future Soviet policy will be one of international division rather than friendship and cooperation. Future events were left to lie with the future itself.

of European democracy and to lend new assistance in the struggle between Christianity's progress versus atheistic materialism.

The eventual week-end, characterized also by symptomatic left-wing demonstrations in Rome, failed to resolve with any degree of finality the true purpose of Vishinsky in raising his unprecedented cry of "war-mongering" against the United States.

### Frivolous Type Growing Extinct On Modern Campus

STATE COLLEGE, Pa., Sept. 23.—Good-time Charlie and glamorous Sal better buckle down to serious work when they enter college this month, if they want to be popular on campus.

According to a study conducted in the psychology clinic at the Pennsylvania State college, the conscientious, industrious student—provided he is also friendly and pleasant—is far more popular than the glamor boys and girls.

The popular student, according to the study, is intelligent, dependable, capable, honest, loyal, friendly, pleasant, entertaining, and kind.

And, believe it or not, if you hate

to walk under a ladder or shudder when a black cat crosses your path, your popularity score goes down, too. Superstition was rated as one of the undesirable personality traits. Five other quick ways to lose friends include being lazy, boastful, gossipy, hypocritical—and expecting George to do your work for you.

**SPECIAL ELECTION**  
HARRISBURG, Sept. 23.—(INS)—A special election will be held November 4, in conjunction with the general election, to fill a senate seat vacant since the death August 27 of Sen. Clarence D. Becker, it was announced today by Lt. Gov. Daniel B. Strickler.

To Mary Lyon, founder of Mt. Holyoke Female seminary in 1836, is attributed the saying, "Educate the women and the men will be educated." From her work at Holyoke sprang modern higher education for women in America.

### City Fire Whistle Not Blowing Now

For years the Union brewery whistle blew to denote fires. It recently has not been blowing. Fire authorities here have worked out a system of calling volunteer firemen to difficult blazes.

When firemen reach a fire and the superior officer needs volunteers he notifies a police cruiser operator, who radios to police headquarters the fact.

The sergeant on duty at police headquarters then telephones a key man to every volunteer squad. The key man notifies squad members to report immediately.

### Million Dollars For Florida Relief

WASHINGTON, Sept. 23.—(INS)—The American Red Cross on Monday made available \$1,000,000 to meet disaster relief needs in the hurricane-ridden gulf coast states and southern Florida.

The appropriation was announced by Basil O'Connor, president of the Red Cross.

Incomplete reports from Red Cross surveys over the week-end indicate that more than 1,200 homes have been destroyed, at least 12,000 homes damaged, and that about 100,000 persons have been housed and fed by Red Cross in the four affected states.

## Career Women Making Success Of Married Life

Four Salt Lake Women  
Forsake Fashion World  
For Family Vocation

SALT LAKE CITY.—(INS)—Marriage is what you make it, say four Salt Lake City wives, who gave up promising careers in fashion designing, acting, writing and secretarial work for the vocation of keeping a family happy.

All four say they wouldn't give up cooking favorite recipes for "The Man," wiping little Johnny's nose, or baby-feeding, for a weekly paycheck.

And they do not feel that they've lost touch with the world, or that life has become as routine as a robot's, or that their college educations were wasted.

One of the wives interviewed was Mrs. Bronson F. Stringham, who gained success in the field of fashion designing as Lucille Oblad, and ran her own studio.

### Designed Fashions

For a while after she married, she designed fashions for a downtown store, but the arrival of a small son three years ago became her first interest, and she dropped the outside work.

Mrs. Norman C. Williams, formerly Helene Parsons, was heading for Broadway stages some five years ago. After acting in summer stock, she reached New York by way of the University of Oregon, radio and stage work.

But her plans changed when she met Norman Williams, who was studying for a doctor's degree at Columbia.

Mrs. Williams said: "I wouldn't trade my husband, home, and Gregory, 4, and Gary, 1, for marquee lights on Broadway." The ex-Katy Evans, now Mrs. Kenneth D. Reese, was accustomed to printers ink and beating deadlines five years ago, but she too gave up the career for home and family.

Family Includes Son, Daughter  
The family includes Randall Douglas, 4, and Sylvia, 10 months old.

Mrs. Braint G. Badger left a position as secretary to a Washington, D. C. congressman. Wanda West before her marriage, she held the secretarial post for Congressman Will Robinson.

She says: "Homework and your own home is wonderful. I like cooking and I like baby tending. We have Stephen, 3, and Barbara Ann, six months old."

### THE PARENT PROBLEM

(Continued from Page Four)

mates at school, fear of some bullies, or fear that a younger brother or sister at home will get more affection than he will get. Maybe he has never been weaned emotionally from you.

Do your best to remove the causes but work out means to get him him to school without fail. Even if he should vomit, let him take along to school a sandwich he might eat later. He needs to play with more children of his own age. A related bulletin is "Your Child and His Playmates," to be had in a stamped envelope by writing me at 235 East 45th street, New York, N. Y.

## WASHINGTON CALLING

(Continued from Page Four)

mocracy are the main objectives of American intervention. This fact is evident to anyone who looks objectively at our undertaking in Greece to date. It makes laughable the charges of American imperialism and the rest of the jargon spouted by Andrei Vishinsky before the United Nations Assembly.

### May Bungle Job Here

We may bungle the job here. If we fail, the reason will be precisely because we have not intervened with sufficient force and determination. Our own irresolution in this unprecedented adventure in foreign policy is in itself a refutation of the Russian charges.

Anyone less like a dictator and imperialist than Grisol would be hard to find. Communist propagandists indulge in silly fabrications when they try to make him out a gauleiter. His attitude is typically Americans in that he would like to

do a practical job and then get out and leave the country to decide its own fate in a democratic way.

One tragic mistake here was to cut down the U. S. information service just at the moment that the American mission began to operate. Because of the short-sightedness of Congress, the information service in Greece has been reduced to almost nothing. While the mission is trying to take over the function in part, this is a serious lack at a time when it is needed.

The United States has a story to tell that is not propaganda. It is the story of the success of a system which spreads real benefits very widely and yet has kept free choice for the individual. The facts speak far louder than the noisy jargon of world communism. Our reluctance to tell the world of our intentions, and how we are going about carrying them out, is a grave handicap. It leaves a vacuum that the Russians are only too eager to try to fill.

### 'Deeply Democratic

The Greeks themselves are deeply democratic. The Metaxas dictatorship in the late thirties sought to

impose the paraphernalia of fascism. But it was never more than skin deep. The resourceful Greek found subtle ways of burlesquing songs, salutes and other mumbo-jumbo of the dictator.

The Germans, with all their boasted efficiency, would do very little about subjugating the Greek people. Revolt, both concealed and open, constantly grew during the years of occupation. Finally the Germans gave up even trying to keep controls in the countryside.

Even if we had such aims, it would be stupid folly to impose any arbitrary system on Greece. An important segment of Greek Communists are Greeks first and Stalinist Communists only second or third. These are facts that cannot be obscured no matter how loud the propaganda that emanates from Moscow.

## THE WORLD AND THE MUD PUDDLES

corn, especially, corn. It was not enough that the floods in the corn belt should have wrought devastation to three and one-half million acres of cultivated farm lands in the states of Iowa, Nebraska, Illinois and Missouri, but the shriveling heat without any rain relief dur-

ing the month of August have reduced our corn supply very materially, and that in itself has the effect of cutting down the cattle and hog crops and running up the price of beef and pork. And yet we continue to send shipload after shipload of grain to Europe.

It is high time that Washington re-read the story of Joseph and the wheat shortage in Egypt while he was the chief adviser to the Pharaohs, and particularly observe how Joseph handled the crops of the rich years.

## General Debate At U. N. Assembly To Conclude Today

By PIERRE J. HUSS  
FLUSHING MEADOWS, N. Y., Sept. 23.—The U. N. General Assembly today with an emergency plea by Secretary General Trygve Lie for the big powers to compose their seemingly irreconcilable differences.

The 1000 delegates then will transfer their work to UN headquarters at Lake Success for hectic weeks of committee work in drafting resolutions on Palestine, Greece, the veto, and newly presented U. S. and Soviet proposals.

Two Sessions  
Two plenary sessions scheduled for the Flushing Meadows auditorium this morning and afternoon are aimed at approving the provisional agenda as submitted to the fifty-five nations by the 14-nation steering committee.

Another oral eruption by the Soviet bloc against admitting to the agenda the Greek question and possibly that of a permanent "watch-dog" assembly as proposed by Secretary of State George C. Marshall is likely to transpire.

High Government  
Cost Is Blamed  
For High Prices  
NEW YORK, Sept. 23.—(INS)—Robert A. Seidel, vice chairman of the National Retail Dry Goods association and controller of the W. T. Grant Co., today told a congressional sub-committee investigating prices that "all prices are at high levels because of the high cost of government."

Seidel declared at a public hearing that the cost of government and the resulting high tax rates have a very direct and major effect on our price structure. He said: "The food bill, high as it is, is less than double the per capita cost of 1929, whereas the cost of government is 10 times as great, and actually exceeds the cost of food."

"Even if all possible war activity items were excluded from the 1946 expenditures, they would still be more than five times those of 1929."

The reason why so many wooden clocks and pictures of clocks have their hands pointing to 8:19 is because that was the hour of Abraham Lincoln's assassination.

## Ask Jail Probe At Youngstown

YOUNGSTOWN, O., Sept. 23.—As an aftermath of a jail break last Thursday night by seven prisoners from Mahoning county jail, Federal Bureau of Prisons will be asked to make a thorough inspection of the jail.

Request for the inspection was made Monday by Mahoning county common pleas judges and county commissioners at a meeting behind closed doors. Two of the seven men who fled the jail have been recaptured and are behind bars again here.

The judges and commissioners agreed at Monday's meeting that a thorough study should be made of the jail and of county office needs in general. One proposal made here recently suggested erection of a complete new building to house not only the jail, but provide space for other county offices and agencies.

## Jail Fugitive Is Recaptured

SALEM, Mass., Sept. 23.—(INS)—Word was received today at Salem jail of the capture in Columbus, O., of James McDonald, 20, one of four men who escaped six weeks ago from the jail.

Columbus authorities quipped McDonald as bragging he had "burned up the East" in a series of hold-ups, thefts and burglaries since his escape.

He was captured by police who were waiting for his return to a Columbus room. Ohio authorities said McDonald did not have a chance to use a loaded .38-caliber revolver he was carrying in his pocket.

Daylight Time

PHILADELPHIA, Sept. 23.—(INS)—This coming week-end is the one sleep hoarders in Pennsylvania have been awaiting for months.

Daylight saving time ends officially at two a. m. Sunday in much of Pennsylvania and sleep-lovers will get back that hour of slumber they sacrificed last spring when "fast time" began.

But remember to turn your alarm clock back an hour before going to bed Saturday night or you'll lose out on that extra 40 winks.

## Senator Taft On Way To Seattle

Faces Prime Test Of His Presidential "Popularity" In Tour Today

By WILLIAM THEIS  
(U.S. Staff Correspondent)

EN ROUTE TO SEATTLE WITH SENATOR TAFT, Sept. 23.—Sen. Robert A. Taft (R-O.), faced the prime test of his presidential "popularity" tour today as he entered the Northwest to defend the Taft-Hartley law in labor-tough Seattle.

The G. O. P. leader indicated he might be getting set for a fighting speech in Seattle tonight by lashing out for the first time on his tour against Democratic leaders who took issue with his criticism of President Truman's price policies.

Taft's speeches so far in California and Nevada, his first stops in a six-state western swing, have impressed his listeners as carefully prepared, factual arguments setting forth the Republican position. Even to Taft followers they have not been "stem-winders" in the political campaign sense.

### Makes Reply

But the undecorated presidential candidate broke stride in replying to Sens. Lucas (D-Ill.) and O'Mahoney (D-Wyo.), who accused him of being the "foreman of the wrecking crew" which ended OPA last year.

Taft called their remarks "intemperate and untrue personal attacks" which he said really emanated from "the Democratic high command". And he issued this challenge:

"Do Messrs. Lucas and O'Mahoney desire to re-establish OPA? Suppose they state their solution for high prices, instead of calling names."

Taft pointed out that in a San Francisco speech last week he laid down a definite program for halting the living-cost spiral, including a stabilization of prices and wages at 50 or 60 per cent above 1939 levels.

### BRITISH MINERS STRIKE

## Life Sentence For Sex Crimes

PITTSBURGH, Sept. 23.—(INS)

—William Mitchell, 33-year-old father of three, already serving a 12½ to 25-year sentence in Western Penitentiary for an alleged sex crime, on Monday received a second sentence which adds up virtually to a life term.

Judge Samuel A. Weiss sentenced Mitchell, of Pittsburgh, to serve 17½ to 35 years in prison and fined him \$15,000 for an alleged attack on a 14-year-old Pittsburgh girl. Police testified that Mitchell enticed a 12-year-old boy and his sister to a railroad yard. There he tied the boy to a box car and attacked the girl. He attacked her the second time in a nearby woods.

Mitchell was first sentenced from Westmoreland county last May for attacking a nine-year-old girl and then tossing her into a field near McKeesport.

## Huge Loss Of Fruit In Florida Storm

WASHINGTON, Sept. 23.—(INS)

—The Agriculture department estimated that the devastating Florida hurricane destroyed four to five million boxes of grapefruit and one to two million boxes of oranges. The department reported that "important acreages" of fall vegetables also were lost through wind and rain damage. Three to four thousand acres of snap beans and about 2,500 acres of tomatoes were completely washed out.

Egg plants, peppers and cucumbers were also hard hit. The department previously had estimated the 1946-47 crop year production at 30 million boxes of Florida grapefruit and 53 million boxes of oranges.

## State Over Hump In Teacher Lack

However Hundreds Of Classrooms Still Await Enough Qualified Instructors

HARRISBURG, Sept. 23.—(INS)—Pennsylvania today was over the hump of the teacher shortage but hundreds of classroom vacancies existed.

The department of public instruction looked for a gradual increase in instructors and a reduction in teachers lacking full qualifications who were given emergency certificates to help the state weather the war spawned education crisis. Five thousand emergency "substitutes" taught last year.

"Reports submitted by superintendents of first, second and third class school districts show that the total number of qualified applicants plus the teachers who have been employed on emergency certificates is adequate to fill all vacancies except in some special subject fields," said Superintendent Francis B. Haas.

## Tax Plan May Be Extended To Entire Country

G. O. P. Fiscal Leaders In  
Congress Said To Favor  
Nation-Wide Com-  
munity Property  
Law

WASHINGTON, Sept. 23.—(INS)—GOP fiscal leaders in Congress are believed today to have reached a virtual agreement to extend to the entire country the community property tax law now effective in 13 states.

Congressional tax experts estimate that such a step would mean an annual saving of \$744,000,000 in personal income taxes to America's "middle class" in the remaining 35 states.

A civilian group headed by Roswell Magill, former undersecretary of the treasury, and the staff of the joint House-Senate tax committee now are working out a program for submission to the 80th Congress when it reconvenes.

The proposal holds the support of the Treasury Department, whose experts recently issued a report endorsing the plan.

Under the community property tax plan, ownership of a family income is vested in both husband and wife, entitling each to file separate tax returns. This in turn results in a lower income for each individual and reduces the amount of taxes.

## Pittsburgh Woman Suffers Bullet Wound

PITTSBURGH, Sept. 23.—(INS)—Police said that Eleanor Corace, attractive 31-year-old wife of a Pittsburgh building contractor, was wounded early today when a target pistol discharged in her hand.

St. Joseph hospital attendants said the bullet pierced her abdomen, causing a severe loss of blood. Her husband, Frank Corace, told police the shooting occurred in a guest room. He said he had just bid friends goodnight when he heard a shot.

Police said the Coraces had placed the target pistol in a guest room Sunday night instead of returning it to a closet where other guns were locked up. They had used it to shoot crows in a nearby woods.

Chestnut Tree With Burrs

Hardly had Saturday's edition of The News left the press, requesting the location of a chestnut tree with burrs on it, when a call was received by the News photographer stating that a first growth chestnut tree was growing on the farm of John C. W. Copper, of R. D. 1, Old Princeton road.

Pictured above is the 25 year old tree which was missed by the blight of 15 or 20 years ago which wiped out the chestnut trees of this section of the country. The trunk of the above tree is about 18 inches in diameter.

The tree bears many burrs and another frost similar to that of Monday evening will bring them to the ground. Mr. Copper's son has a second growth tree on his farm which is doing fine. The inset in the above picture shows the chestnut burrs magnified.

## Hypocrisy On Bingo Declares Federal Judge

PHILADELPHIA, Sept. 23.—(INS)—Federal Judge Guy K. Bard charged the Pennsylvania legislature with "hypocrisy" on the issue of "bingo" contests.

Judge Bard denounced the game as illegal, according to state court rulings, and criticized the Post Office Department for not acting against newspapers which accept advertisements for the games.

The judge's remarks were made during a hearing for Bernard A. Gallagher, 50, of Palmerton, asserted operator of a "bingo" game at Lakeview Park in Mahanoy City.

"Isn't bingo considered a violation of the law in Schuylkill county?" Judge Bard asked James Gallagher, of Mahanoy City, council for Bernard Gallagher, but no relation.

"Well," replied the lawyer, "it is not considered a serious crime."

**Lot of Hypocrisy**

"There's a lot of hypocrisy going on in the State of Pennsylvania about this bingo business," Judge Bard retorted. "Whenever you put it (the issue of legalizing bingo) up to the legislature, they (the legislators) blow hot and cold and say they don't want to take the law (the state's anti-lottery law) off the books, and say it doesn't mean anything in their county any-how."

If bingo is a violation in one county it ought to be a violation in all the 67 counties of the state, and there ought to be some consistency about it."

Gallagher was fined \$50 by Judge Bard after Postal Inspector W. A. Minor testified Gallagher had discontinued sending advertisements of the game through the mail, though continuing "bingo" at the park.

**CONTROL PEACH TREE BORER NOW**

Peach tree borers, which kill thousands of trees each year, can be easily controlled before October first. After that date, control becomes more difficult.

Peach tree borers enter the bark of the tree near the ground level, starting late in the summer. They destroy the bark at this point, causing severe injury or death.

The most effective means of control is the use of parathion-benzene. This material must be used carefully, or it may injure the tree. Directions for its use are found in a leaflet which may be obtained from the Agricultural Extension Office, 206 Post Office Building, New Castle.

## First Injunction Sought Under New Taft-Hartley Act

WASHINGTON, Sept. 23.—(INS)—Robert Denham, general counsel of the national labor relations board, today sought the nation's first injunction under the Taft-Hartley act against an alleged unfair labor practice by a union.

Denham announced that the action was filed in federal court at Chattanooga, Tenn., against Local 74 of the United Brotherhood of Carpenters (AFL) and its business agent, Jack Henderson.

The board charged that a secondary boycott, defined by the Taft-Hartley law as an unfair practice, had been launched by the union against Watson's specialty store in Chattanooga.

A hearing for arguments on the injunction petition was set for September 30.

Paul L. Styles, NLRB regional director, filed the injunction petition in Denham's behalf.

The union is accused of causing its members to leave their jobs on a

Chattanooga home construction project when non-union employees of the Watson store began to install wall and floor coverings.

The injunction stated that the union had unsuccessfully sought a closed shop contract with Watson's although it had no members working there.

Petitions have been presented for the paving of South Liberty street, Blaine street and Wabash avenue. Regulations of the city call for assessments to be paid in advance. Council has decided to pass up these thoroughfares this year.

They point out that only four property-owners in Wabash avenue have paid an assessment and none have paid for South Liberty and Blaine streets.

# Brooklyn Dodgers Win National League Pennant As Cubs Trim Cards

## 'Bums' Back In With Cubs Help

Dodgers Meet Yankees Week From Today In Start Of World Series

### CARDS NOW FIGHT FOR SECOND PLACE

By LES CONKLIN  
(International News Service Sports Writer)  
NEW YORK, Sept. 23.—The Brooklyn Dodgers backed ingloriously into the National League pennant today, just one week before they meet the New York Yankees in the first game of the world series. The Dodgers could have nailed the flag to the mast as long ago as last Thursday by beating Pittsburgh that day, but in the end they had to let the Chicago Cubs clinch it for them.

#### Cubs Do It

The St. Louis Cardinals, dying with their boots on, still retained a mathematical chance to finish in a tie with Brooklyn until the Cubs beat them last night 6 to 3. Earlier St. Louis triumphed 4 to 2 in the afternoon when Harry the Cat Brecheen won his own game with a timely single. The wake of the Cardinals was celebrated throughout Brooklyn early today as fans repaired to the nearest tavern to toast the winning of the Dodgers' fourth pennant since the turn of the century, but their first since 1911. The Brooks never have won a world series.

#### Braves Fighting

The Cardinals, knocked out of the pennant scramble, now must defend second place against the Boston Braves, who are only a game and a half behind them and fighting desperately for second place. In the American League, Detroit and Boston are deadlocked for the runner-up spot. Roy Cullenbine of the Tigers won yesterday's opener from Cleveland, 6 to 4, with a double in the eighth, and thought he also had won the nightcap with a three-run homer, also in the eighth. However, pinch hitter Hank Edwards' three-run homer in the ninth matched this and Cleveland went on to win 7 to 6. The St. Louis Browns beat the White Sox 4 to 2, then lost the second game 4 to 0. Other teams were idle.

## Bamby Captures Females' Class

Winning Beagle Is Handled By Dale Sutton, Hodgeville, Ky., A Pro'

White Art Bamby, owned by Recca Curtis of Waynesville, O., finished first in the 13-inch AA females event yesterday at Volant where the Shenango Valley Beagle club conducted trials, which will not be finished until Thursday night.

Reynolds' Blue Girl, owned by Otto Reynolds of Carnegie, took second place; L. Mars Mary, owned by C. W. Lloyd of Mars, finished third and Onie's Lady Belle, owned by Everett Jones of Salisbury, Md., took fourth place, reserve going to Stock's Gypsy, owned by Fred Stockton of Fayetteville, Ky.

The winning hound was handled by Dale Sutton of Hodgeville, Ky., a professional handler visiting the Shenango club. Spectators who attended the meet witnessed some spectacular running. There were 76 females in the class, coming from different sections of eastern and southern United States. Today the 15-inch AA (all age) females will start and it is expected this class will be finished by nightfall.

## Advance County League Meeting

Meeting night for managers and officials of the Lawrence County Baseball League has been changed from Thursday to Wednesday night, it was stated today by President Alec Samuels.

Many of the club pilots had previous engagements for the original evening set and because of this it was decided to alter the date. The session will get underway at 7:30 prompt.

## DEM BUMS—NOW THE PRIDE OF THE NATIONAL LEAGUE

CHAMPIONS of the National league are the rollicking Brooklyn Dodgers, pictured here. Undismayed by loss of their manager, Leo Durocher, who was suspended by Baseball Commissioner A. B. Chandler for the season, the Dodgers went on to take an early lead under Manager Burt Shotton and held it to the end, despite a vigorous challenge by the St. Louis Cardinals. (International)

## Ben Franklin Opens Its 1947 Season Thursday

Patriots Clash With Beaver Falls At Stadium; Great '46 Team Has Departed

Ben Franklin Junior high will start the 1947 season Thursday afternoon with a new coach and no regulars left from the terrific 1946 powerhouse.

Tutored now by George Massie and Miller Kerr, the Patriots will pry off the lid against Beaver Falls at 3:30 p. m. Graduation and the age limit restriction wreaked havoc in the ranks of the junior high champs, one of the finest arrays of grid material ever to show its wares in the county.

#### Now In WPAL

The East Siders are now a member of the junior WPAL and hope to get off on the right foot this week despite the Herculean rebuilding job now underway. Following Beaver Falls the Patriots will meet Ellwood City Junior high Thursday, Oct. 2.

The starting lineup will be selected from the following lists: ends, Marino and Farone; tackles, DeLillo, Beshero, Cummings and Grant; guards, Regan, DePalco, Tyrrell and Thompson; center, Charles and Augustine; halfbacks, Paolone, Frasso, Amode and Martirelli; fullbacks, Graziano and Roussos; quarterbacks, Sansone and Cupido.

## New Castle Hopes To Win Second AA Game Here Friday

"Beat Sharon" Rings Through Halls At Senior High This Week

"Beat Sharon" is ringing through the halls at Senior High this week, as the big "Red Hurricane" of Phil Bridenbaugh prepares to battle the snarling Tigers of Sharon High at the stadium Friday night.

The New Castle team resumed training at the stadium on Monday. No serious injuries cropped up in the Youngstown East game, young Wing is still limping with a bad cleat bruise on his leg, but is expected to play Friday against Sharon. Cialella and DiCola got shaken up in the East game, but will play this week.

**Jones Is Problem**  
The most serious problem this week for the coaches is "how to stop Wally Jones," the great Sharon passer, who made a shambles of the New Castle secondary at Sharon last year, with his aerial heaves.

New Castle hasn't looked to bad on pass defense so far this year the Youngstown East game threw 14 and completed only three. Strong Vincent threw 21 and made six, so 7 out of 35 passes for the opponents to date isn't a very good record.

**Stress Blocking**  
Along with pass defense this week, Bridenbaugh is stressing the "block" and charging. New Castle hasn't looked too good in blocking a vital requisite to any good ball club.

"We will be ready for Sharon, you can rest assured" Bridenbaugh stated.

"Sharon beat our club 24 to 6, last year at Sharon, but it won't be anything like that this season," was the way "Bridy" put it, and the boys around him nodded likewise.

It is a serious New Castle High "Red Hurricane" crew that is getting ready for the invasion of the Tigers, and a little tail twisting might be in order this week at the stadium.

New Castle is mighty anxious to nail that second Class AAA victory to the masthead. A 14-year-old Connellsville girl was western Pennsylvania's No. 1 football casualty. Patty Ann Shaffer, a cheer leader for the Dunbar Township high school, was doing cartwheels and handspins when her hand slipped and she fell to the ground, fracturing her nose.

## Plans Advanced For Band Trip

Committee Meets With Chairman Raney To Aid Plan To Send Band To Bethlehem

Meeting with Chairman Ed Raney, the committee which is raising funds to send the senior high school band to Bethlehem on Thanksgiving Day advanced the plans further Monday night.

Chairman Raney told the committee that many football fans suggested that a collection be taken between halves at the game Friday night with Sharon high school to add to the fund. The committee accepted the suggestion and the collection will be made, with Boy Scouts handling the containers.

#### Athletic Expenses

The audit of the athletic receipts and expenditures for the year 1946 has been completed by City Controller William A. Moore and Mr. Raney gave the committee a breakdown of the figures.

Receipts on football are shown as follows: Gate admissions for seven home games, \$15,622.48; adult season tickets, \$8,736.24; student season tickets, \$3,013.75; guarantees for three games away, \$1,000; concessions, \$203.59; basketball admissions, \$3,192.32. There figures are net after Federal taxes. The Federal taxes, which are shown as a receipt and expenditure were \$6,095.41. Miscellaneous refunds, \$216.43.

This is a gross total of \$36,170.26 received from athletics. Out of this total comes all the expenses of football, basketball, track and golf. Track and golf are 100 per cent expense, basketball takes in some receipts but seldom breaks even.

#### Disbursements

The disbursements include guarantees paid to visiting teams, \$5,534.80; officials, gamemen and police, \$2,665.50; equipment, \$2,767.05; repair and clean equipment, \$303.82; scouting, \$211.82; tickets and printing \$445.46; lighting field, \$268.92; medical expense, \$893.63; travelling expense, football team, \$489.50; travelling expense, band, \$337; training camp, \$1,014.2; Federal taxes, \$6,107.91; miscellaneous expense, \$628.12; track expenses, \$1,804.47; basketball expenses, \$2,686.85.

The total athletic receipts for 1946, according to Mr. Moore's official audit were \$36,170.26. The total disbursements for all athletics was \$33,742.02, leaving a net balance, or profit for the year of \$2,428.24. This should not be taken to mean that football made only this much. This means all athletics and like every high school and college, football carries the load for all athletics.

The year 1946 was a good year. But athletic expenses are high and in addition there are the athletics other than football which have a place in the field of sport but which return no cash profit. They do return an intangible profit in physical fitness and character building. Under the state law the school board is permitted to buy band equipment and music. A month ago the board spent \$1110 for tubas. Smaller instruments for the most part are owned by the players. Out of athletic funds a few months ago were purchased nine band uniforms, a drum major uniform, uniforms for the eight cheer leaders and the ten majorettes.

No tax money may be used for such purposes as sending the band on trips. Hence the money must come out of athletic profits or public contributions. If every dime of last year's profit were taken it wouldn't suffice to finance the trip to Bethlehem. In addition to all these facts, out of athletic profits are to be made payments upon the new steel bleachers seats which will take every bit of profit for many years.

"The band is an integral part of the football games," said Chairman Raney. "The color, the spectacle and the excellent music are something to which the fans look forward. The band has carried New Castle's name to many cities. Now let's show Bethlehem what it is."

Glenn Killinger's West Chester State Teachers graders have embarked on a campaign to prove their coach wasn't talking through his hat when he predicted an undefeated season for his club.

## Completes Training For Hunter Fight

PITTSBURGH, Sept. 23.—(INS)—Agassie Ossie (Bulldog) Harris, Pittsburgh middleweight, who has been battling some of the nation's best more years than he cares to recall, today wound up training for his fight at Cleveland Wednesday night with Chuck Hunter.

Harris returned to the ring wars two weeks ago after a three-months layoff—one of his periodic retirements. He said he also has signed to meet Cowboy Reuben Shanks in Denver, October 8.

## Titans Prepare To Meet Rockets

Coach Mel Hetzler Moves Krivosh To Tackle Spot To Add Strength To Line

(Special to Central Press)

NEW WILMINGTON, Sept. 23.—Coach Mel Hetzler sent his Titan gridgers through a light signal drill Monday afternoon, preparatory to settling down to heavy work the remainder of the week for the Slippery Rock Teachers' Lifter on Saturday.

Hetzler will spend time ironing out the flaws that showed in last Saturday's intra-squad game. The varsity Blues managed to eke out a 9-0 win over the boneyard crew. Joe Demolise threw a long pass to Jim Ross for the lone touchdown. Demolise then converted.

**Krivosh At Kickoff**  
Shortly after the kickoff, tackle Harry Sample blocked an attempted punt, the ball rolling through the end zone for two points. In an effort to strengthen the forward wall, Hetzler moved Cy Krivosh, 190-pound end letter-winner of last fall, to a tackle post. Krivosh made a favorable impression, and will add greatly to the reserve strength.

The cellar-ridden Philadelphia Phillies will continue playing next season under Manager Ben Chapman.

## Columbus And Indies Will Play Wednesday In Start Of Series

First Series Game At Flaherty Field, 7:15 P. M., Second Game Sunday

### Lawrence Indies Will Use Chmura Recreation Field For Home Games

New Castle baseball fans will have their own little world series, starting Wednesday evening at Flaherty Field, as the Lawrence Indies battle the Columbus Club in the first of a five-game series. The game is slated for a 7:15 o'clock start.

The early starting was inaugurated owing to many fans having to work at night and it will give them a chance to see the game and get to work on third trick.

The second game will be played next Sunday at Chmura Recreation Field off Mahoning and Atlantic avenues, across the street from the old Cedar Street Field. The Indies have fixed up the field and have done a swell job.

**Shaffer vs. Richard**  
Pitching selections for Wednesday evening are the veteran Fred Shaffer against Dick Richard of the Beaver valley, according to managers—Mike Orlando of the Columbus Club and George Zidow of the Indies.

The teams will start workouts today to keep in shape. The Indies defeat of the Universals Sunday gave the Columbus Club the final spot, the Seventh Warders having lost but one game, in the playoffs. Interest in the series is intense.

at the moment. The fans are assured of seeing a lot of good baseball in the coming series. The admission price at Flaherty Field Wednesday evening will be 50 cents for any seat.

Final arrangements for the playing of the series was made at a meeting held last night in which Charles "Bugs" Walther, Joe O'Leary, Mike Babovsky, George Bladow and Mike Orlando attended, the first three named being city baseball league officials.

The series dates are: September 24, October 28, October 1, October 5, and the final game to be decided if needed.

## Los Angeles Rams Release Three Men

LIGONIER, Pa., Sept. 23.—(INS)—Three players were released today by the Los Angeles Rams of the National Football league as the squad was cut to 34 to conform with league rules.

They were Ben Chase, guard, who captained the 1944 Navy team; Kenneth Reese of Alabama, and Keith Spait, of St. Mary's, both backs. The Rams are training in Ligonier for next Monday night's game with the Steelers in Pittsburgh.

#### DUTTON GIVEN RELEASE

PITTSBURGH, Sept. 23.—(INS)—Wild Bill Dutton, regular right halfback with the Pittsburgh Steelers of the National Football League last season today was released outright as Coach Jock Sutherland cut his squad to the required 34 players.
